

Payafee

THE BILLING AND PAYMENT SOLUTION THAT HELPS YOU RECOVER BOOKING, BOARDING AND OTHER FEES THAT MIGHT SUBSEQUENTLY BE LOST

Payafee provides you with an easy method for recovering the outstanding booking, boarding and other fees owed to your agency. With Payafee you can bill for what is owed and provide easy and convenient ways to pay - without crippling your staff with extra work. Payers can pay by phone, online, or by mail with a certified check or money order or credit card. The flexibility and ease of Payafee means you will see more fees recovered faster.

HOW IT WORKS

Your agency provides Payafee with unpaid fee information needing to be paid.

Payafee produces, prints, stuffs and mails a letter to the payer on behalf of your agency.

The amount of the fee plus the handling charge is paid online, over the phone, or through the mail using a credit card, certified check or money order.

Payafee distributes paid fees to your agency.

IT'S A SERVICE FREE TO YOU AND EASY TO USE

Payers pay flat handling fees, and you receive 100% of the fees owed to your agency. Payafee can integrate with existing commissary or jail management system, so you receive the data you need with little to no impact on your staff. Your facility benefits from the additional, unbudgeted funds. Fees can also be paid for a variety of other charges that may be owed including alarm fees, and animal shelter fees, as well as any other fee a detention center or sheriff's office might need to collect.

BENEFITS OF PAYAFEE

- Can increase fee recoveries by 30% - 40%
- No need for you to handle the money
- We oversee all mailings, saving you time and manpower, letting you manage your agency more efficiently
- Internet-based so there's no software to buy, install or maintain
- Free-to-you service...the flat fee for each transaction is paid by the payer and you recover 100% of your fee
- Multiple payment methods including credit cards, money orders, and cashiers checks
